

To our patient family:

We have made the decision to reduce our services to urgent/emergent eye care through April 5, at which time we will re-evaluate the situation.

Although the physical office will be closed, there will be someone available to answer questions, place contact lens orders, schedule urgent/emergent patients, etc. by phone from 10 am – 2 pm M-F.

We are offering to extend contact lens prescriptions for up to 6 months for current patients. If you are in need of contact lenses, please contact the office.

Our doctors are still available for red eyes, sudden vision changes, injuries, and other urgent issues for both new and established patients during the hours of 10 am – 2pm. Outside of those hours, please send a text message to our office phone number and our on-call doctor will reach out to you.

If you have glasses ordered, paid off and ready for pick up, you can call to arrange for curbside pickup, or we can ship them directly to you for \$5.

Contact lens orders of 2 boxes or more can be shipped to you with free shipping.

As always, we are here to assist our patients. If you have questions about your specific situation, please feel free to call.

Thank you.
